Title: Bipartisan Infrastructure Law Airport Terminal and Tower Project Information

Form Numbers: 5100-144.

Type of Review: Renewal of an information collection

Background: The Federal Register Notice with a 60-day comment period soliciting comments on the following collection of information was published on May 6, 2022 (87 FR 27200). The FAA will use this collection to solicit the information necessary to evaluate and select airport terminal and tower projects for funding under the Bipartisan Infrastructure Law (BIL), signed on November 15, 2021. The BIL provides about \$1,020,000,000 annually, for five years, to award competitive discretionary grants for airport terminal and tower development. Of this amount, about \$1,000,000,000 annually, for five years, is for the Airport Terminal Program, and \$20,000,000 annually, for five years, is for an Airport-owned Contract Tower Program (referred to collectively as “Airport Terminal and Towers Programs”). The information collected is based on grant considerations and priorities outlined in the BIL. Project consideration areas include increasing terminal capacity and passenger access; replacing aging infrastructure; achieving compliance with the Americans with Disabilities Act (42 U.S.C. 12101, et seq.) and expanding accessibility for persons with disabilities; improving airport access for historically disadvantaged populations; improving energy efficiency, including upgrading environmental systems, upgrading plant facilities, and achieving Leadership in Energy and Environmental Design (LEED) accreditation standards; improving airfield safety through terminal relocation; encouraging actual and potential competition; and creating good paying jobs. The information FAA is collecting will include general airport information, a project overview, and narratives on project consideration areas as outlined in the BIL. Airport owners and managers who want to pursue funding and obtain benefits from the BIL Airport Terminal and Tower Programs will submit information via FAA Form 5100–144 to compete for grants. Approximately 3,075 airports are eligible to participate in the BIL Airport Terminal Program and about 170 for Tower programs, but FAA expects only a small subset of eligible airports to submit project information through this competitive discretionary grant process.
